

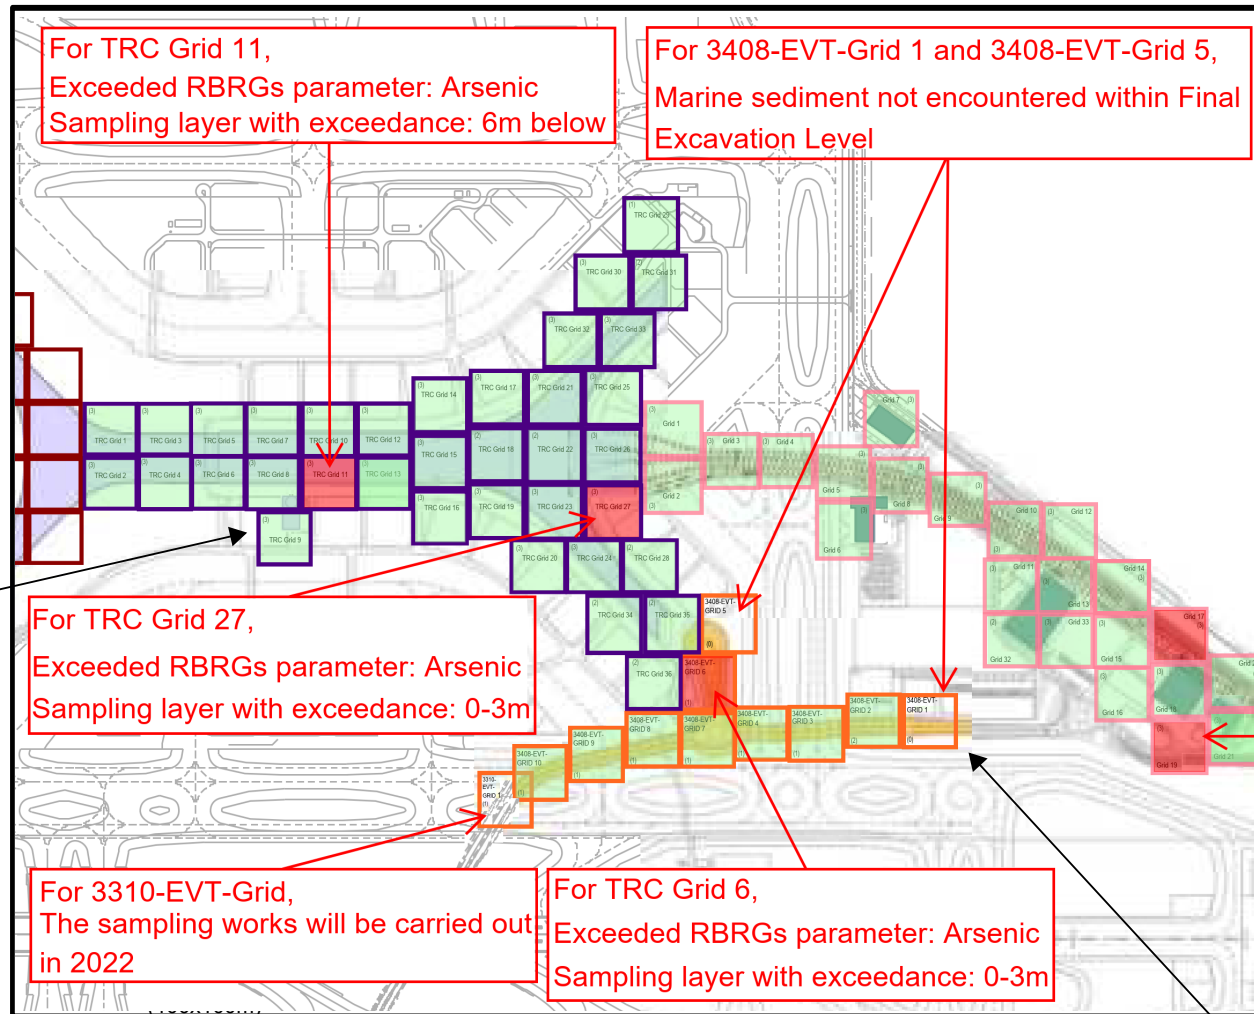

# Figure 2.3c - Zoom in Layout of Sampling Grid for Terminal 2 Concourse and Eastern Vehicular Tunnel

Zoom in

**LEGEND:**

- Terminal 2 Concourse Sampling Grid (100x100m)
- Eastern Vehicular Tunnel Sampling Grid (100x100m)
- All sampling layer(s) passed RBRG limit(s)
- Sampling layer(s) with testing parameter(s) exceeding RBRG limit(s)
- (0) No sample taken as the marine sediment was not encountered within the final excavation level
- (1) One sample taken from the depth of 0-3m
- (2) One sample taken from the depth of 0-3m and 3-6m
- (3) One sample taken from the depth of 0-3m, 3-6m and 6m to the bottom of the marine sediment to be excavated

Terminal 2 Concourse Sampling Grid (100x100m)  
 Total number of sampling grids: 36  
 Total number of grids with RBRG exceedances: 2  
 Exceeded RBRGs parameter: Arsenic

Eastern Vehicular Tunnel Sampling Grid (100x100m)  
 Total number of sampling grids: 11  
 Total number of grids with RBRG exceedances: 1  
 Exceeded RBRGs parameter: Arsenic  
 Total number of grids where marine sediment not encountered within final excavation level: 2  
 Total number of grid to be sampled in future reporting period: 1
